ESCAPE TO GRENADA

Taste the Spice

Come home to white sand beaches, and vivid topaz waters. Come home to lush rainforests and clear, refreshing waterfalls. Grenada packs a lot into 334 square miles of paradise. It's the land where the conch shell is a call to the ocean, or to cultural connection, where all are welcome. A place where a unique culinary experience is not just a means of living, but a way of life. It's the "Isle of Spice" or "Spice Isle"—a trinity of inviting islands known especially for its culinary spices. Carriacou and Petite Martinique completes the three island territory.

Historically the fertile Grenadian soil became a favourite of the spice industry globally for its supply of bay leaves, tumeric, nutmeg, mace, cloves, and cinnamon. This has become part of Grenada's identity and spice is synonymous with its name globally. Also adorning the bounteous hillsides are an array of fruits (bananas, coconuts, papayas and more) and root crops that inspire residents to take pride in their unique cuisine creations.

Every year, international visitors make this slice of paradise their worthy escape. Now, we welcome you home. There's no better time to answer the call.

MESSAGE FROM THE IMA GRENADA

The Citizenship by Investment (CBI) programme was designed to attract foreign direct investment into our economy, whilst also protecting the value of Grenadian citizenship and its reputation and connection across the globe.

At the Investment Migration Agency Grenada, we thoroughly review all applications, ensuring that the CBI programme is kept exclusive to investors who will uphold the integrity, prestige, and honour of Grenadian citizenship, while also encouraging innovation, industry, and private enterprise through our country.

Grenada's CBI programme has contributed significantly to the growth of our nation's economy, and we expect it will continue to do so for many years to come. The inward investment it promotes has led to the creation of sustainable long-term employment, specialist training, and the general broadening of skills for numerous Grenadians. We aim to build a flourishing private investment market, and to watch the nation's economy grow even more. Certainly, with its natural resources, safe environment, and committed local workforce, local and international connectivity makes Grenada the ideal destination for individuals wishing to invest in tourism and other innovative sectors locally and globally.

ABOUT REECE INVESTMENT INC

As a Grenadian national with a strong connection to his ancestry. Entrepreneur, Rupert Reece, has always been passionate about sustainable development.

Emerald Suites is his vision of an ecofriendly development where luxury, beauty and comfort overlap to create an elegant Resort and conference centre. Emerald Suites of Grenada is a heritage vision for Rupert Reece, founder of Reece Investment Inc. EMERALD SUITES

A JEWEL AT THE HEART OF PARADISE

Located near Grand Anse, a central hub of the Caribbean, Emerald Suites blends eco-friendliness and sustainability with an unforgettable feeling of home. It's elegant modern design is underlined by modern comfort and efficiency. The resort features 130 elegant rooms, each equipped with a range of amenities to meet the needs of the discerning traveller.

EMERALD RESIDENCES - COMFORT • EFFICIENCY • LUXURY

Ready for more than just a taste of Grenada? Emerald Suites has got longer-term stays covered. Emerald Residences offer 24 specialised, self-contained suites with open designs. Each residence comes with kitchen facilities, in-room workstations, and private balconies.

They're designed for families or groups who want flexibility and privacy without sacrificing the convenience of a full-service resort.

What sets Emerald Suites apart is a distinctive environment that was created using biophilic elements to support sustainability and enhance the human experience. Its design incorporates natural stone, wood, water, vegetation and light.

STRATEGICALLY LOCATED

When we say convenience, we mean it. There's no hustle or hassle. Emerald Suites is strategically located in the sought-after True Blue Estate, five minutes from Maurice Bishop International Airport.

This gated resort sits on six acres of exquisitely-manicured grounds. Guests can enjoy all the modern conveniences and amenities, including a fully-equipped gym, outdoor pools, tennis court, a luxury spa, a conference centre and more.

And, if you'd like to mix in a little business, there's a nearby commercial hub so you can get all your transactions done. The island also boasts a world class medical school, St George's University. We've thought of everything so you won't have to.

WE DO SUSTAINABILITY

Emerald Suites isn't just blending into the environment. We're inspired by it.

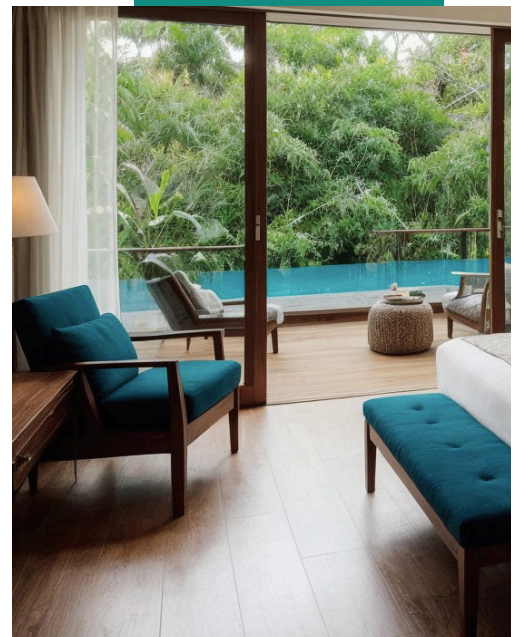

Climate change is having an impact across the globe. We're doing our part to create positive change and to lead by example when it comes to sustainable development.

From concept to design to construction, this has been our pledge and our goal. Grenada is blessed with year-round sunlight, so we've harnessed the power of solar energy.

Solar panels will be installed on 90 percent of our rooftop real estate to power your lights and appliances, keep you cool, satisfy your hot water needs and filter every pool. It will also reduce our carbon footprint, and that is a win-win.

This solar generation system is also connected to Grenada's national power grid, so other residents can use any excess power we generate. We will be harvesting rainwater as well, and treat our wastewater to potable levels, which exceeds industry standards. And all of our furniture are handmade to cut down on waste.

Additionally, Emerald Suites has made an effort to preserve 65% of the surrounding natural flora. We mean green in every sense of the word. So, your stay means you're also an active part of supporting the environment. That's the Emerald Suites' commitment.

A COMMITMENT TO GREEN LIVING

We all want to live in a world that is beautiful, comfortable and sustainably developed to the benefit of generations to come. This desire is the inspiration behind entrepreneur Rupert Reece's vision for Emerald Suites as an eco friendly development, that's an oasis for anyone escaping the ordinary.

Reece is a Grenadian national with a strong connection to his ancestry and a passion for sustainable development on the island. It's why the main focus for the Emerald Suites team is to ensure minimal environmental impact of the project.

The Emerald Suites vision is to be the island and the region's model for an environmentally friendly and sustainable establishment and you can be a part of this.

From the power of solar panels to energy-efficient appliances and wastewater treatment, Emerald Suites lives up to its name green and serene. This is the ideal when it comes to our eco system, a harmonious balance between nature and man. It's leading by example to protect our little slice of paradise.
